About us

TaxFree Shopping started in 2001 with one location and has transformed into the largest licensed customs broker in the state of Texas with 12 locations processing hundreds of customers every week. To receive sales tax refunds, clients visit a TaxFree Shopping location with their purchased merchandise from participating retailers and necessary travel documents. Then, a customer service representative will complete the necessary paperwork, inspect the merchandise and process the customer's refund with an option of cash, check or PayPal payment, less a processing fee.

Becoming a Participating Retailer

Once documents have been fully processed at the TFS corporate office, an itemized billing with all required documents will be sent to the retailer's corporate contact for tax/accounting. The accountant will then send TaxFree Shopping a single payment for said amount and take a credit on the next Sales and Use Tax Return for the amount of sales tax refunded on their next report.
